

## TWISTER XL

The Twister XL is the most impressive ULV backspace applicator in the world. The Twister features a remarkable nozzle and blower system that clearly outperforms the competition in value, durability and performance. It boosts the highest flow rates for true (ULV) droplets of any backpack sprayer in the market today.

The Twister is designed as a lightweight compact aerosol generator that is ergonomically suited for long periods of use by the operator. This unit excels in controlling mosquitoes and other flying insects by way of its patented Microtec nozzle that produces 90% of the droplets under 20 microns at flow rates under 6.0 oz/min (178 ml/min).

## MID RANGE JEEP MOUNTABLE MISTER III :

Mister III has the versatility to dispense fungicides, insecticides, germicides and disinfectants as : wettable powders, emulsifiable concentrates, flowables or liquids in a variety of applications, greenhouses, warehouses, food processing plants, swine / poultry houses and much more.

With a formulation output of 45 ltrs. per hour, Mister III has power enough to produce small particles and effectively disperse them evenly over large areas for fast, economical and total coverage.

Useful for insecticide disinfectant usage in green houses and food storage warehouse.
